

3. Eng. Sohair Taha Ali

Received the B.Sc. Degree in Chemical Engineering, Cairo University.

M.Sc. Degree in Chemical Engineering, Cairo University.

Practically, she worked in the field of Scientific Research. she worked in the field of Plasma enhanced chemical vapor deposition used in different applications such as solar cell, thin film (Nano scale layers) coatings for hardness improvement and corrosion resistance. She is working as the staff member at the Egyptian

Academy for Engineering and Advanced Technology (EAE&AT).

Areas of research include Development of Technology for High Purity Alumina Production.
