

Eng. Basem Hamed

Currently: Assistant Teacher of Material science

Previously:

- Second researcher at Science and Technology Center of Excellence

Education:

- MSc (Material) -Benha University - 2015
- BSc - Benha University - 2007

Research interests

Biomaterial

Nanomaterial

Sample Publications:

- Microstructure, Micro hardness, wear behavior of Al₂O₃/AA6063 surface metal matrix composites fabricated using friction stir processing.
